

## Rocket League One Pager

A webpage showcasing the upcoming videogame Rocket League by using pictures, video, and text information about the game.

RocketLeague.com will demonstrate the gameplay and mechanics of the upcoming game Rocket League by giving users an idea of what the game is about. It will showcase videos of gameplay to show the feel of the game to potential users, as well as pictures in order to depict the main points of the game. The website will also feature information pages in order to give potential users a better idea of what is to come, as well as information on the ongoing beta development of the game. The website should be able to be easily expanded for the full release of the game, allowing extra pages for online purchases of the game.

### Personas:

A casual gamer in mid-30's

High school student

Online youtube/twitch personalities

### Comparables:

<https://www.guildwars2.com/en/the-game/>

Different genre in but, but this is the sort of site layout I am aiming for.

<http://rocketleague.psyonix.com/>

Their current website, featuring only a handful of screenshots, very little information, and only a few videos. Want to keep the same feel, but expand on multimedia.

<http://dirtybomb.nexon.net/>

Also a fast paced action game, website has a good amount of information on the frontpage, as well as much more information and media accessible through the sidebar.
